PERSONALISED CARE

GENUINE PERSONALISED CARE

Every Hirslanden Privé patient is monitored during treatment and recovery by a personal qualified nurse, who coordinates all the necessary care. Along with the attending physician, your nurse is

available to answer questions and cater to all your needs, fulfilling an essential role: the link between you and your doctor.

OUR MOTIVATION: YOUR WELL-BEING

In addition to the nursing staff, you will also have at your disposal a Hirslanden Guest Relations representative, who will be responsible for all your non-medical needs. Your representative will visit you during your stay at the clinic and take note of your wishes – our top priority.

We are happy to cater to your individual needs during and even after your stay by organising supplementary services. Would you like your favourite magazine, a chauffeur, a haircut or a massage? Your Guest Relations representative is there for you, so don't hesitate to ask!

Here are some examples of services that we can organise on request:

- Babysitting
- Hairdresser, pedicure, manicure
- Nutritional and stress management advice
- Travel planning
- Business services: translation, assistance, etc.
- Butler or bodyguard services
- Chauffeur service
- Organisation of follow-on medical treatment

As a private patient, you benefit from the individual services offered by the Hirslanden Privé Service Line, before, during and after your stay at a Hirslanden clinic.
