DOMO GO WATCH AND APP

STAY SAFE, ACTIVE AND INDEPENDENT

KEEP YOUR HEALTH, SAFETY AND FREEDOM IN CHECK.

HIRSLANDEN
A MEDICLINIC INTERNATIONAL COMPANY

360-DEGREE SAFETY, COMFORT AND PERSONALISED CARE

An active lifestyle is good for your heart, your body and your well-being. With an easy-to-use watch and app, you can independently manage your health, safety and freedom.

DOMO GO SMARTWATCH - A DIGITAL WATCH TO GET HELP QUICKLY IN CASE OF AN EMERGENCY

In the event of a fall or if you feel unwell, whether at home or out and about, you can establish a connection to the 24-hour Hirslanden emergency call centre at just the touch of a button. Within moments, an employee from the 24-hour emergency call centre will be speaking to you. This is made possible by the speaker integrated into the Domo Go smartwatch. The 24-hour Hirslanden emergency call centre can organise assistance by sending your position, localised by the Domo Go watch, to the emergency personnel.

DOMO CARE APP - A VALUABLE HELP FOR YOU AND YOUR RELATIVES ON A DAILY BASIS

If you have granted your consent, in an emergency your relatives can gain access to your GPS position via our app and track the messages from the 24-hour Hirslanden emergency call centre in the live chat.

Health data such as heart rate and the number of steps is also recorded while you are wearing your digital watch. This data is processed confidentially in the Domo Care app and displayed in diagram and consolidated form. If necessary, you are free to discuss this with your doctor during your next consultation.

HIRSLANDEN HEALTHLINE

Gain medical advice

The Hirslanden Healthline integrated into your Domo smartwatch and app ensures that you can receive help quickly, easily and personally at any time.

Feel reassured when leaving your home

The integrated GPS allows you to be located quickly should you fall or feel unwell, whether at home or out and about.

Speak directly with the 24-hour Hirslanden emergency call centre

You can trigger the alarm by simply pressing on your watch. You can speak directly to the 24-hour Hirslanden emergency call centre via the integrated microphone and speaker.

Gain support

You will be supported by trained emergency experts, who will assess your situation. They will remain in direct contact with you until you are being treated and are safe.

Inform your loved ones

In an emergency, your relatives are informed by the call centre via the live chat system in the Domo Care app. This gives you optimum support and reassures your relatives.

Track your health

The watch measures your heart rate and your number of steps. You get an easy-to-understand overview of your general health directly in the app.
