

Press Release

Lachen/Zurich, 29th September 2020

COOPERATION IN CARDIAC MEDICINE BETWEEN SPITAL LACHEN AND KLINIK IM PARK

Spital Lachen and Hirslanden Klinik Im Park have decided to enter into a cross-location cooperation in cardiac medicine from January 2021.

The Cardiology department at Spital Lachen already covers a wide range of cardiac medicine and has a large cardiological outpatient clinic. Cardiac Medicine at Klinik Im Park offers the entire spectrum of cardiology and heart surgery as what is known as a “tertiary centre”. The range of services offered by the two hospitals complement each other perfectly in order to provide the population of Schwyz with high-quality, efficient care at a high level at every stage of treatment.

The collaboration will bring further benefits for the two cooperation partners, as Spital Lachen and Klinik Im Park want to jointly collect case and quality figures in the future and establish cross-location training and further education opportunities.

The details of the cooperation will be further refined and defined in the coming months.

About Spital Lachen

Spital Lachen is a joint-stock company of the districts of March and Höfe and has been providing medical care for the district of March for over 100 years and for the district of Höfe in the canton of Schwyz since 1962. It is considered a patient-oriented and regionally anchored health centre with a high-quality and comprehensive range of services. The focus lies on outpatient and inpatient care for the acutely ill and casualties. A professional emergency service and a round-the-clock emergency department contribute to the safety of the population. Integrated healthcare is provided in cooperation with local doctors and other institutions working within healthcare in the region. Close cooperation with partners in the canton of Schwyz and neighbouring cantons extends the range of services.

About Hirslanden

The Hirslanden Group operates 17 hospitals in 10 cantons, many of which have an emergency department. It also operates 4 outpatient surgical units, 17 radiology institutes and 5 radiotherapy institutes. Together with public and private cooperation partners, Hirslanden focuses on the continuum of care, promoting high-quality, responsible, personalised and efficiently integrated healthcare. The Group has 2 506 affiliated doctors and 10 417 employees, 498 of whom are permanently employed doctors. Hirslanden is the largest medical network in Switzerland. In the 2019/20 financial year, the Group generated turnover of CHF 1 804 million. As at 31.3.2020, the Group had treated 107 491 patients, amounting to a total of 471 717 inpatient days. In insurance terms, the patient mix consists of 49.2% basic, 29.3% semi-private, and 21.5% private insured patients.

Hirslanden is synonymous with first-class medical care provided by highly qualified medical specialists with many years of experience. As a system provider, the Group stands out from the rest of the market: interdisciplinary medical centres of expertise and specialised institutes enable it to offer the best possible individualised treatment, even in highly complex cases. The Hirslanden Group was formed in 1990 through the merger of several hospitals. Since 2007, it has been part of the international hospital group Mediclinic International plc, which is listed on the London Stock Exchange.
