PRESS RELEASE

06 May 2021

DOMOSAFETY AND HIRSLANDEN COOPERATE TO STRENGTHEN INNOVATIVE DIGITAL HEALTH SOLUTIONS

DomoSafety AG and the Hirslanden Group have agreed on a long-term strategic partnership under which Hirslanden is making a capital investment in DomoSafety AG.

DomoSafety is a leading company in the digital health segment and develops innovative solutions in the field of patient safety, health monitoring and decision support in the home care environment. The disruptive solutions developed offer more safety, quality of life and independence for people wanting to stay in their own environment, enjoying personalised care.

As a leading Swiss healthcare provider, the Hirslanden Group, together with its public and private cooperation partners, focuses on integrated medical care along the entire life cycle, or what is known as the continuum of care. Stéphan Studer, Chief Operating Officer West of the Hirslanden Group explains: "By collaborating with DomoSafety, we are strengthening our position as an innovative healthcare provider and further expanding the continuum of care in the home care sector."

Guillaume DuPasquier, CEO of DomoSafety, adds: "We empower people to manage their health at home on their own terms. We are thrilled to partner with the Hirslanden Group to consolidate the link between hospitals and home care and provide a unique experience to patients."

About DomoSafety

Domo is a digital health leader, at the forefront of innovation in the field of patient safety, health monitoring and decision support for home care. Domo is active in Switzerland, France, Holland and UK helping international actors to digitalize their healthcare processes and customers experience. Its solutions integrate a SaaS platform (Software as a Service) built using artificial intelligence technics, clinical observations, connected medical devices, mobile and web applications and internet of things (IoT). The mission of Domo is to ensure the safety, efficiency and quality of home care in order to improve the well-being of patients in their living environment.

About Hirslanden

The Hirslanden Group comprises 17 hospitals in 10 cantons, many of them with an emergency ward. It also operates 4 outpatient surgery centres, 17 radiology and 5 radiotherapy institutes. Together with its public and private cooperation partners, Hirslanden focuses on the Continuum of Care and the promotion of high-quality, responsible integrated healthcare that is self-determined and efficient for the individual.

The Group has 2,506 partner doctors and 10,417 employees, 498 of whom are salaried doctors. Hirslanden is the largest medical network in Switzerland and reports sales of CHF 1,804 million in the 2019/20 financial year. As of the reporting date 31.3.2020, the group treated 107,491 patients on 471,717 care days as inpatients. The patient mix is made up of 49.2% patients with basic insurance, 29.3% with semi-private insurance and 21.5% with private insurance.

Hirslanden stands for first-class medical quality, guaranteed by highly qualified specialists with many years of experience. The Group differentiates itself in the market as a system provider: interdisciplinary medical competence centres and specialised institutes enable optimal and individual treatment of even highly complex cases. The Hirslanden Group was formed in 1990 from the merger of several hospitals and since 2007 has been part of the international hospital group Mediclinic International plc, which is listed on the London Stock Exchange.
