WELCOME

Dear Préférence Patient

Health is a matter of trust - thank you for placing your trust in us. Our primary goal is to ensure you receive ideal treatment and care and that you leave our hospital with the best possible health outcome.

During your stay, our medical experts, specialists and the other employees involved in your care will do everything they can to make sure you feel at home.

The enclosed brochure contains information about the preparations you will need to make before arriving at the hospital, as well as what to expect during your stay at Klinik Hirslanden. If you have any questions, please do not hesitate to ask us.

Your satisfaction is the measure of our success.

We would like to thank you for choosing Klinik Hirslanden and wish you a pleasant stay.

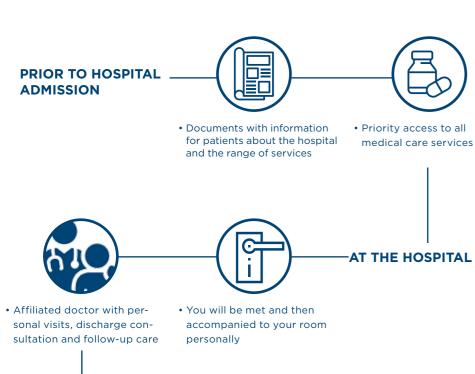

Yours sincerely,

Marco Gugolz

Hospital Manager Klinik Hirslanden

BEFORE YOUR ADMISSION

Admission form/ admission information

Please fill out and sign the admission form and return it to us together with a copy of your insurance policy within two working days by post or via email to check-in hi@hirslanden.ch.

Assumption of costs/deposit

The hospital requires confirmation of coverage from the insurance fund or the canton for patients who have semi-private, private or extra-cantonal insurance. If your insurance does not cover all the costs, you may be asked to pay a deposit prior to admission. If this is the case, we will notify you in writing. We assume that you are aware of the caveats and restrictions on choice of hospital detailed in your policy.

Upgrade

If you would like an upgrade, please contact our Patient Administration (T +41 44 387 24 21).

Surgery involving anaesthesia

Depending on the operation, an anaesthesia consultation may be required. This consultation is conducted either in person or by telephone. Please refer to the appointment notice for more detailed information.

Billing of costs

The costs are billed in accordance with our contracts with the insurance companies and the current tariff system. We usually send the bills directly to the health insurance companies. You will incur no further expenses. Patients with supplementary insurance are invoiced directly by the doctors (e.g. surgeons). Please discuss any related questions with your attending doctor.

Extras/private expenses

You will receive a separate, detailed invoice for any extras (e.g. room service, telephone calls, visitor meals, etc.) after you have been discharged.

Additional requests

If you have any special requirements, please make this clear when you check in (T +41 44 387 23 71).

You may remain anonymous for your entire stay if you so require (e.g. we can ensure that no telephone calls are passed on to you). In this case, please contact Guest Relations (T +41 44 387 35 83).

Questions and information

The Patient Administration is happy to answer all your organisational questions (T +41 44 387 24 21). For questions regarding insurance coverage, health insurance or accident insurance, please contact our insurance coverage enquires team (T +41 44 387 95 90).

ADMISSION TO THE HOSPITAL

Admission

When you arrive at the hospital, please report to the Welcome Desk. You may have to be admitted to the outpatient clinic for organisational reasons. In that case, you will move into your room after the procedure.

Appointments for medical clarifications or for a consultation with the anaesthetist will have already been arranged in advanced. Your admission time is scheduled on the day of the operation, so that you do not have any unnecessary waiting time. We would be grateful if you could arrive on time for your appointment.

It is very important for us that you be admitted on schedule. Due to emergency admissions and in consideration of medical indications and priorities, it may be necessary to postpone your admission.

Rescheduling is always undertaken in consultation with your attending doctor and may take place at short notice. If your appointment is postponed, we will inform you as soon as possible.

Medical documentation

Please bring all the medication you are currently taking, including the original packaging, as well as your medication plan. Pre-prepared pill organisers (filled with tablets) are not suitable. Please give all your medication to the nursing staff. They will enter it into our system, so that this important information can be accessed by your attending doctors. This enables us to ensure that your existing medical therapies will be correctly administered during your stay.

Personal belongings

We advise against bringing any valuables (large sums of money, jewellery, watches, etc.) with you to the hospital. The cupboard in your room contains a safe for storing your personal belongings and small sums of money. The hospital does not accept any liability for everyday items (such as clothing, etc.) or valuable items (particularly glasses, hearing aids, dentures, etc.).

If you are scheduled to be transferred to the intensive care unit (ICU) after your surgery, it is possible that you will not be able to return to the same room after you leave ICU. In such cases, the hospital will look after your everyday items until you have been moved to another room. Your valuables will be stored securely in the safe at the Welcome Desk.

Please read carefully our hospital admission checklist on page 30.

Patient safety

Patient safety is a top priority at Klinik Hirslanden. The following measures directly affect you as a patient:

- Upon admission, our inpatients receive their personal patient identification bracelet.
- One of the most important standard hygiene measures for preventing infections at our ISO-certified hospital is the use of hand disinfectant by our staff and doctors.
- If you are scheduled to undergo surgery, you will be asked several times to confirm your identity and the place on your body where the surgery will take place, in addition to other routine questions.

These questions are part of the surgical checklist, which is used as standard to avoid confusion.

EXAMINATION AND OPERATION

Before the examination

Doctor's visit and preparation

Before the examination, your attending doctor will visit you to discuss the entire procedure. The nursing staff will provide you with information about any physical or medical preparations.

Eating

Usually patients must have an empty stomach on the day of the examination. You will receive more information about this from your attending doctor.

The examination

After you arrive in the examination room you will be looked after by the examination team. They will inform you about the individual stages of the procedure.

After the examination

Depending on the type and scope of the examination, you will then either be transferred to the monitoring unit or accompanied directly back to your room.

Before the operation

Doctor's visit

The anaesthetist and the surgeon will discuss all the important aspects of your procedure with you and answer any questions you may have. Depending on the procedure, an anaesthesia consultation will have already taken place.

Preoperative fasting

Patients must have an empty stomach for the procedure. You will receive more detailed information about this either in the appointment notice or from your doctor during the preliminary examination.

Physical preparations

The following preparations are necessary for your own safety:

- Remove any dental and partial prostheses, hearing aids, contact lenses (risk of eye inflammation) or jewellery, particularly earrings and piercings (risk of burns).
- Remove all makeup, nail polish and hair clips (if you have gel nails, please contact your attending doctor).
- Please shower on the day of the operation, but please do not use any skin cream or body lotions.

 Please do not shave the operation area yourself, because you may accidentally damage your skin. If the surgical site needs to be shaved, this will be done by our trained nursing staff immediately before the procedure.

Medication

The anaesthetist may prescribe medication for you to take in the evening before your operation. You will receive additional medication about an hour before the surgery.

For your own safety, after you have taken it, you are no longer permitted to leave the bed on your own.

The operation

The nursing staff will wheel your bed into the operating theatre where you will be met by the anaesthetist and special anaesthesia personnel, who will carry out the necessary preparations so that your cardiac activity and circulation can be monitored. The anaesthesia team will look after you throughout the entire operation.

Monitoring after the operation

After the operation you will be initially be cared for in the monitoring unit. Your health will be monitored by specially trained nursing staff. The anaesthetist is responsible for you during 24 hours after the operation.

If more extensive medical care is required, you will be moved to the intensive care unit, where you will be monitored around the clock using the latest technological devices and looked after by a team of specialised nurses and intensive medicine specialists.

Information about the operation results

Your attending doctor will inform you about the results of the operation as soon as possible.

Pain

Pain relief medication is prescribed by the attending doctor or anaesthetist. If you are in pain, do not hesitate to inform one of our nursing staff.

YOUR STAY

Rooms

Our twin rooms are equipped with a toilet and shower. Towels, soap and shower gel are also available in the room. The towels will be changed if they are left on the floor. Thus, you can play a part in protecting the environment by determining when they are changed.

Our Préférence patients will receive slippers and a dressing gown if desired.

Bed

The bed can be electronically adjusted (overall height, height of the head and foot sections). The nursing personnel will be pleased to show you the hand levers so that you can choose the optimum position yourself. The two sides of the mattress offer varying levels of lying comfort, which means it can be used on both sides. One side is made of viscoelastic foam (similar to memory foam), the other of conventional cold foam. The viscoelastic side

prevents wounds from sticking and it is positioned face-up upon your admission. If neither of the two sides meets your personal lying needs, we also have other harder and softer mattresses. Our mattresses are fitted with a breathable protective cover for hygiene reasons.

Klinik Hirslanden is equipped with the latest generation of bedding; we commissioned our suppliers to develop it, but we were actively involved in the development process. It is unique because the mattress cover has been sewn directly to the bedding. This means you can be sure that you always have freshly washed bedding on admission, as well as during your stay. Through testing we determined that the optimised microclimate allows you to sleep more deeply and soundly.

Please contact the nursing and Room Service if you require additional bedding, additional pillows or positioning materials.

Telephone

You can be contacted via the direct line to your room between 7 am and 10 pm. Your phone card needs to be inserted into the phone at all times to receive calls. All calls between 10 pm and 7 am are taken by the Welcome Desk. You will find the instruction manual for the telephone card which you received upon admission. For safety reasons, mobile phones are not permitted in certain parts of the hospital. Please take note of the corresponding signage.

Internet

Free wireless Internet is available in the patient rooms. If have any questions, please speak to one of our Room Service.

Email

You can receive email messages via the email address klinik-hirslanden@ hirslanden.ch. To do so, your name must be entered as the subject. The emails will be printed out and given to you during office hours from Monday to Friday.

Post

We will deliver all letters, faxes, emails, parcels and flowers to your room as quickly as possible. You can give any outgoing post to Room Service or hand it in to Welcome Desk.

Radio/TV

The television in your room offers a wide selection of radio and TV programmes.

If you are sharing your room, please show consideration to your fellow patients by keeping the volume of the radio or television to a moderate level. Room Service staff will provide headphones free of charge.

Daily newspapers

Our Préférence Patients receive a newspaper every morning. They can choose from NZZ, Tages-Anzeiger, International New York Times, Corriere del Ticino or Le Temps. Room Service will take note of your requirements when ordering breakfast. The foreign language newspapers are available in the afternoon. A wider selection of newspapers can be purchased from the shop.

Library

We have a library with a selection of books for our guests. If this is of interest to you, please speak to one of our Room Service.

Laundry service/dry cleaning

We can arrange for your private laundry to be washed or dry cleaned by an external partner at market prices. Please note that this can take several days. Please contact Room Service.

Flowers and plants

Room Service will regularly look after your flowers upon request. Please do not bring potted plants into the hospital (for hygiene reasons).

QUADRO restaurant

Our restaurant serves daily set menus for lunch and dinner, as well as a range of à la carte dishes.

Opening hours:

Monday to Friday, 10 am-9.30 pm Saturday and Sunday, 10 am-9 pm

Coffee lounge and shop

Our coffee lounge with a view of the inner courtyard incorporates a shop selling a wide range of magazines, newspapers, books, various gift items as well as toiletries and hygiene products.

Opening hours:

Monday to Friday, 7 am-7 pm Saturday and Sunday, 8 am-6 pm

Menu choice

For the main meals, we offer a variety of set menus, weight-loss menus and à la carte dishes, all prepared in accordance with the latest nutritional criteria. We also offer vegetarian and kosher dishes. Préférence Patients are charged for à la carte dishes, but benefit from a 25% discount. Please speak with Room Service if you have any questions.

Meal times

Contact a member of Room Service to find out the specific ward mealtimes.

Nutrition advice

From Monday to Saturday, our specialists offer patients advice and support with all matters of nutrition related to their medical situation. For example, our team takes care of patients suffering from malnutrition, complaints in the gastrointestinal tract or difficulty swallowing. Besides discussing meals and offering advice during your hospital stay, we also provide further outpatient service if needed and at the request of your doctor. This service will be invoiced separately.

Guest Relations

Our Guest Relations department is also on hand to assist Préférence Patients with any questions, feedback or criticism they may have in relation to their stay at the hospital. The Guest Relations staff can be reached on internal phone number 3583 and will visit you in your room upon request.

Pastoral care

We understand that a stay in hospital often causes patients to pause and reflect. Depending on your diagnosis, you may suddenly have particular concerns, worries, fears and feelings of loneliness or questions about the meaning of life. Our hospital chaplains are here for you and your family

throughout your entire stay and you can also request regular visits or conversations. If you would like to receive pastoral care, please contact one of our nursing staff or call the internal phone number 2100/2102 (Protestant) or 2101 (Catholic) and leave a message on the answering machine.

An on-call chaplain is also available at night and over the weekend. Religious services are held in the hospital to celebrate religious holidays.

Our volunteers

Patients at our hospital can request visits from our voluntary employees. Our volunteers bring some variety to your daily hospital routine. They have plenty of time for a chat (in English, French, Italian or German), to read you the newspaper or to accompany you to the coffee lounge for a drink.

Hairdresser

There is a unisex hairdressing salon at the hospital. Patients who are not mobile can request that a hairdresser come to their room instead (call the internal phone number 2535 to make a reservation).

Opening hours: Monday to Friday, 9.15 am-6 pm Saturday, 9.15 am-2 pm

Manicures/pedicures

We work with an external partner to offer manicures and pedicures. Room Service is happy to provide you with information in this regard.

Cash withdrawals

There is a cash machine in the entrance area of the hospital. You can withdraw cash in Swiss Francs or Euro at any time of day from this machine.

Raiffeisen customers can also check their account balance and the latest transactions on their account.

Smoking

Please note that smoking is prohibited in all areas of Klinik Hirslanden, as well as on balconies. Klinik Hirslanden is in this way making an important contribution towards the protection of non-smokers.

Smoking is permitted on the terrace of the QUADRO restaurant, as well as in our courtyard, both of which can be accessed during the day and at night.

Fire protection

We have equipped the entire hospital with an automatic fire protection system and clearly marked escape routes for your safety. It is forbidden to light candles.

VISITORS

Visiting hours

Visiting hours are ongoing from 9 am-9 pm. If you do not wish to receive visitors for a certain period of time, please notify the nursing staff.

Visits and telephone calls in the intensive care unit

The daily visiting hours at the ICU are 11 am–8 pm. Visits outside these hours must be arranged in consultation with the nursing staff.

For hygiene reasons, no flowers may be brought into the unit.

Your close relatives are free to call at any time to enquire after your well-being. Depending on the situation, you can receive these phone calls personally or make calls yourself.

Visitor parking

Comprehensive information on the hospital's location and visitor car parking is available on page 32.

Visitor catering

Your guests are also welcome during lunchtime or in the evening. Naturally, they are free to dine with you – either in your room or in our QUADRO restaurant. Visitors can choose between the daily menu and an extensive selection of other food and beverages. Meals can be taken in your room until 6.30 pm. The QUADRO restaurant opening hours are available on page 18.

Visitors' toilets

There are designated toilets for visitors available outside the patient rooms.

DISCHARGE FROM THE HOSPITAL

Time of discharge

Your doctor will let you know what day you may leave the hospital. On the day you are due to leave, please vacate your room by 10 am at the latest so we can get it ready for the new patients.

Checking out

Before you leave the hospital, we kindly ask you to inform your nurse and give them your telephone card or leave it at the Welcome Desk.

Health resort stays/physiotherapy/ rehabilitation/home care

Any follow-up care should be discussed with your doctor as early as possible. If you have any questions regarding home care, health resorts, physiotherapy, rehabilitation or technical aids, please ask the nursing staff. Certain technical aids can be purchased directly from the hospital. We do not offer a rental service.

Discharge medication

Before you are discharged from the hospital, your doctor will inform you about any medication you need to take and you will also receive the necessary prescriptions.

We greatly appreciate your feedback

Were you satisfied with the care you received during your stay in hospital? Is there anything we could do better? We strive to continuously improve the quality of the services at our hospital.

After your stay, you will receive a questionnaire via email. You can use it to make requests and suggestions.

There is a feedback form in the patient folder in your room. We value your opinion.

MEDICAL INFORMATION

Affiliated doctor system

Our affiliated doctor system enables us to provide an extensive range of firstclass medical services. The accredited affiliated doctors collaborate closely with the hospital and use our highly specialised infrastructure. Thanks to this system, you will be treated by a doctor from the initial consultation. right through until you make a complete recovery. So you can look forward to receiving comprehensive treatment from a single source. Patients with supplementary insurance benefit from a free choice of doctor, consideration of their appointment wishes and other services. A precise overview of the services included for each insurance class can be found towards the end of this brochure.

Doctor availability/emergencies

An anaesthetist and an emergency doctor are present at the hospital at all times. Your attending doctor or their representative can also be contacted by the hospital at any time if required. Our wards and intensive care units are always staffed. A surgery and anaesthesia team is also available around the clock. Klinik Hirslanden has a specially trained resuscitation team that is always on hand. Our duty to provide

medical assistance means that resuscitation may be necessary in emergency situations. For this reason, please be aware that we will immediately begin resuscitation measures in the event that a patient goes into sudden cardiac arrest. If you do not wish to be resuscitated in such circumstances, please talk to your attending doctor so that your decision can be put into writing and you will be treated accordingly.

Comprehensive and personalised care

Everything we do at Hirslanden is designed to provide our patients with individualised and holistic care. Throughout your entire stay in hospital, the nursing staff provide professional care and support to meet your specific needs and those of your family.

All the related nursing processes and procedures are always overseen by a qualified nurse. They work closely with other healthcare specialists, as well as medical students and trainees. We are committed to training medical students, because a guaranteed supply of qualified practitioners is essential for our hospital, as well as the healthcare system more generally. Qualified nurses coordinate all activities on the

wards and ensure flawless communication between all those involved in your care.

The focus of all our nursing efforts is to help you regain your health and independence as quickly as possible. And of course, we are also on hand to assist you during medical emergencies.

Therapy

The therapy department at Klinik Hirslanden supports and accelerates your recovery process during your inpatient or outpatient stay at the hospital with a comprehensive range of therapies: physiotherapy, occupational therapy, speech and language therapy, as well as medical massage.

The right therapeutic measures can reduce pain, resolve functional disorders and have a positive effect on patient rehabilitation following illness, accidents and operations involving the musculoskeletal system.

If you have any questions please contact our office directly on T +41 44 387 26 20, which is open Monday to Friday from 8 am-12 pm and 1 pm-5 pm.

Medical specialties

Klinik Hirslanden offers comprehensive surgical, medical and nursing care in a variety of specialist disciplines. Would you like to receive detailed information about our medical specialisations? We would be happy to send you specific brochures (T +41 44 387 23 81).

LEGAL INFORMATION

Use of your data and samples for research purposes

In recent years, major advances have been made in the early detection and successful treatment of disease. These developments would not have been possible without medical research.

Klinik Hirslanden is committed to supporting ongoing research that will help us better understand disease. According to Swiss law, we are permitted to use patient data and biological materials (samples) as long as the patient has provided written consent.

This is why we ask patients upon admission whether they consent to personal data gathered during routine examinations being made available for research purposes. Patients receive a fact sheet about this process, as well as a declaration of consent form to sign.

Further information and the declaration of consent are available on our website under Research and Education.

By providing your consent, you will be making a contribution towards the advancement of medicine.

Video surveillance at the hospital

The video surveillance system monitors hazard-prone areas in order to help protect patients, visitors, Klinik Hirslanden and its staff against burglary, theft, trespassing, vandalism and harassment or anything else that might jeopardise security and personal safety. The purpose of the video surveillance system is to deter potential perpetrators and make it possible to review the situation in the event of any incident. Video data is stored for a maximum of seven days.

In specialised areas such as the intensive care units, operating theatres and the surgical wing, the video systems are used to monitor and control hospital processes and to assist staff. This video data is not stored.

Video-monitored areas are visibly marked for all parties concerned.
